

## > Corona Virus

In this difficult moment of our life, we are all trying to do our best. I would like to thanks all Customers, Partners and friends from around the world which supported us.

After days of lockdown we will re-start operation after Easter, partially but we will. Since the beginning BRAR managed the emergency by applying all strictly regulations required, reducing the staff presence and re-organizing all activities to protect our people.

*See you soon!*

## > New orders

We are pleased to inform you that even this is difficult situation, new contracts have been awarded to BRAR for the design, manufacturing and supply of High- Current Connections.

We would like to underline the extraordinary success of our patented and innovative **ONE CABLE**, the new electric arc furnace superior performance cable that represents the new benchmark for the sector.

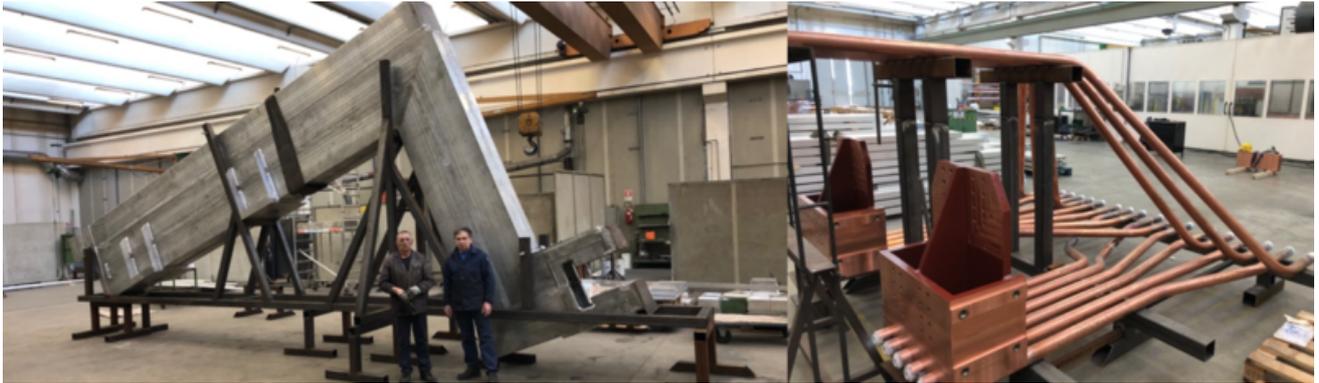

Many Customers are so enthusiastic and placed orders, among the others from Turkey, Indonesia, Japan, Thailand, Korea, Italy, UK and France.

**ONECABLE ONE LOVE**

---

## > Ongoing projects

As soon as we re-start we will quickly proceed on manufacturing of ongoing projects, which includes Power Conducting Aluminum arms, Power Conducting Steel-Copper arms and High current busbars for India, China, USA, Russia, Poland, Indonesia. We have today the big challenge to re-schedule all activities in order minimize the lockdown consequences.

---

We keep running, working hard and looking forward for new challenges!
