

[BRAR Newsletter 03-20](#)

> ONECable-ONEWorld

We are really proud to have received the approval of **ONECable patent** from Ministero dello Sviluppo Economico, which confirms the extreme innovative solutions of our new cable. Extension in foreign countries is on the way.

Today you can easily recognize ONECable thanks to the new orange **ONECable label** on external rubber hose. *Very cool!*

A lot of Customers are choosing **ONECable | The Superior performance water cooled cable**. Latest new orders are from China, Turkey, Greece, Japan, Poland and Italy.

Feedbacks from end users are nice, e.g. *Shane from Liberty Steel Laverton - Australia* wrote " I like the new desing for these cables...".

It's also nice to discover the vision of a Customer like *CMC Metals*:

ONE TEAM. ONE COMMITMENT. ONE GOAL. ONE CMC.

Do you guess which cables CMC recently ordered? **ONE Cable** of course...

> High current system for N°2 SHARC DC EAF

As per our latest news, BRAR successfully completed factory cold tests of busbars and Aluminium Power Conducting Arms for SMS Group for N°2 SHARC DC EAFs with a current up to 120kA.. The scope of supply *included the design and manufacturing of:*

- *Water cooled aluminium busbars*
- *Water cooled copper connections*
- *Water cooled ONEcable's*
- *Aluminium power conducting arms*
